Make Your Own Lulav & Etrog

Supplies & Program From: https://www.theholidayspot.com/sukkot/sukkot_crafts.htm

Supplies:
1) Paper towel tube
2) Green construction paper - 2 sheets.
3) A pair of strong scissors.
4) Staples/tape.
5) Glue.
6) Cardboard egg carton.
7) Yellow paint.
8) Magazines (optional).

Program:
1) Wrap the paper towel with one of the construction paper sheets. Glue or tape in place.

2) Cut long "fringes" in the other construction paper sheet, leaving about 2-3" along the edge untrimmed.

3) Turn over the fringe to push it into the paper towel tube. Secure in place using glue/stapler. Your lulav is ready.

4) Now you have to make the etrog. Cut two egg cups from the egg carton, leaving a small lip around the edges. Fix one edge of one cup to the edge of the second cup with glue to form an oval-shaped etrog. Leave to dry.

5) When the glue has dried, paint the etrog in yellow color.
