

I remember my days in Hebrew school. How will this be different?

Visit our Learning Center and you'll see our students...

Participating thoughtfully and excitedly in class discussions.

Forging bonds of friendship and mentorship with our knowledgeable and skilled teaching staff.

Developing a pride and an excitement about being Jewish.

Tasting the holiday food they've created under the guidance of a professional Jewish cooking master.

Creating Hebrew-language artwork with a noted Judaica artist.

Growing in commitment to values like tzedakah (charity), gemilut hasadim (acts of loving-kindness) and tikkun olam (healing and repairing the world), through study, conversation, and volunteer projects.

Feeling completely "at home" in a synagogue setting; leading services and reading Torah and Haftarah at their Bnai/Bnot Mitzvah and beyond.

Some of us (probably not most of us!) may have been privileged to have a Hebrew School experience that was this rich, varied, vibrant and exciting. For all of us, it is a gift we can give to our children.

The family education component of the Learning Center helps parents to learn about Jewish tradition alongside their children.

The Learning Center gratefully benefits from the support of the Samuel and Rose Riemer Foundation, the Violet Zall Hordes Foundation, and the membership of the United Synagogue of Hoboken

LEARNING CENTER

Where The Love of Learning and
The Joy of Judaism Continue...

The Learning Center is the after-school and Shabbat Jewish education program for children ages 3 to 18 at the United Synagogue of Hoboken.

Our Mission

The Learning Center offers our young people a vibrant Jewish education that teaches them to participate in Jewish life through Jewish prayer, study, music, art, trips to Jewish sites, and Jewish holiday and Shabbat celebrations.

We want our families to feel at home here at the Synagogue and to feel that Judaism is an adventure that never ends. Through study of Torah, Jewish prayer, ethics, and Mitzvot, employing a wide variety of learning techniques, we help our students and families create a Judaism that brings joy, meaning and purpose to their lives.

“You shall teach them diligently unto your children...”

Our diverse and experienced bilingual faculty includes general studies teachers, university students in Judaic Studies, and others who share a love of children and Jewish heritage.

We are committed to making sure that financial circumstances are not a barrier for anyone seeking to provide a Jewish education for their children.

Please contact Grace for more information about the Learning Center and to receive an application, or to sit in on a class!

We look forward to meeting you!

Other Program Highlights

Jewish content activities occur both in and out of the synagogue. Recent trips have included sleepovers at the American Museum of Natural History and Liberty Science Center and discussions on Jewish perspectives on science; Jewish Philadelphia; Washington DC and Jewish perspectives on public policy.

Class Meeting Times

Our classes meet on various afternoons throughout the week and on Saturday mornings. We offer a homework room on Learning Center class days from 3-4pm so that students can come directly from school to the synagogue.
