Forgotten Cookies

350F, overnight

2 egg whites
2/3 cup sugar
Pinch salt
1 cup chopped pecans
1 cup chocolate chips

PREPARATION:
Beat egg whites until thick, then add sugar. Continue beating until egg whites are stiff.

Stir in chocolate chips and pecans.

Line a baking pan with aluminum foil (do not grease!).

Drop egg white mix by spoonful onto the baking sheet. Don't worry about making them look pretty.

Place in the oven.
Turn the oven OFF and go to bed! Leave them overnight.

Next morning, take them out and peel them off the aluminum foil. Try not to eat all 2 dozen before you share them with others.
