PURIM FUN BEGINS SUNDAY

Here ye! Here ye! The YINW Annual Purim Carnival is this Sunday, March 5th. Please join us for a host of fun-filled activities with plenty of games, an obstacle course, face painting, prizes, food and the chance to dunk your friends in the first ever YINW Dunk Tank. The merriment begins with a magic show at 12:00pm. We're still taking dunk tank volunteers and the list keeps growing. Contact youth@yinw.org to sign up. The cost is free for Boosters, $10 for members and $15 for non-members with a maximum of $30 per family. The dunk tank is $3 per throw or $10 for 5 throws with a chance to get some former presidents drenched. That means you Shapsie!

YU Chag HaSemikhah Shabbaton comes to YINW

This Shabbat, Parshat Terumah, YINW is proud to be one of numerous shuls across the Five Towns participating in the Yeshiva University/RIETS *Chag HaSemikhah Shabbaton*, celebrating the next generation of Rabbinic Leaders. Please join us in welcoming to our shul Rabbi Noach Goldstein and Rabbi Daniel Stein. Shabbat morning, we will hear from Rabbi Goldstein, and Shabbat afternoon at 4:15pm, we will hear from Rabbi Stein, who will be giving a shiur entitled, *Presents to the Poor on Purim: A New Type of Charity*. All are encouraged to attend.

Joining the Older Crowd

In honor of our Rabbi and Rebbetzen preparing to *grow up* and joining the 40+ club this spring and summer respectively, the Septimi are hosting a 40+ *chaburah* this coming Shabbat, Parshat Tetzaveh, March 11th. All families with a 40+ member among them are welcome. We promise, nobody will be carded. To sign up and to contribute something to the *chaburah*, go to docs.google.com/spreadsheets, and enter "chabura 3-11-17" into the search box. The topic of the *chaburah* will be the same as this Shabbat *chaburah* for the Millennials: *Purim, Costumes, and Growing Up/Dressing Up.* Looking forward to seeing everyone there!

Israeli Inventions and Innovations – Intel Israel

Israel prides itself in the enormous number of inventions and innovations developed over 68 years—despite challenges of geography, size and diplomacy. We continue our list of some of Israel's top inventions:

Intel Israel, changed the face of the computing world with the 8088 processor (the "brain" of the first PC), MMX and Centrino mobile technology. Israeli engineers at Intel in the 1990s had to convince skeptical bosses to take a chance on MMX technology, an innovation designed to improve computer processing. It's now considered a milestone in the company's history.
