I Sh'vat 5778

Dear Parents,

We are excited to share with you that Kitah Dalet (4th Grade) is doing a special project in honor of Israel's 70th Birthday. Each Dalet student is receiving his or her own topic and the entire SJS community will have a chance to learn from their projects.

We ask that you purchase a trifold board and that you oversee your child's work. The most optimal size board is Elmers Trifold Corrugate Project Display Board 28x40. You can purchase a trifold at Target, Walgreens, Amazon, CVS, etc. Amazon only sells that size in packs of 12. An online link to purchasing one trifold board is here: https://www.target.com/p/elmers-trifold-corrugate-project-display-board-28x40/-/A-15058100?sid=1385S&ref=tgt_adv_XS000000&AFID=google_pla_df&CPNG=PLA_Seasonal+Shopping_Brand&adgroup=SC_Seasonal&LID=700000001170770pgs&network=g&device=c&location=902

Dalet students are expected to write or type about the topic that they are assigned in their own words on paper and to glue their write-ups onto the trifold. Before students glue their write-up and pictures (from websites) on the poster, a parent should take a look at it and make sure there are no spelling mistakes.

The project is due by Wed, April 11, but can certainly be turned in sooner. We will celebrate as a school soon after the projects are turned in. We will put these boards up lining the first floor of the school building.

Todah Rabbah,

Mr. Sherman and Mrs. Moustakis
