CARING FOR YOUR ARBA MINIM

1. The esrog and lulav should not be put in the refrigerator. They should not be kept in a damp place.
2. The hadasim and arovos should be stored in the refrigerator in one of the following ways:
 - a. in aluminum foil which is tightly closed.
 - b. in a damp towel
 - c. wrapped in a damp paper towel inside aluminum foil

USING YOUR ARBA MINIM

The hadasim should be placed in the holder on the right side of the lulav as you hold the שדרה (green spine of the lulav) facing you. The arovos should be placed in the holder on the left side. The hadasim should be a little bit higher than the arovos. Rabbi Weingarten will review the order of the shaking of the lulav on the first morning of Yom Tov.

HALACHOS FOR SHABBOS & YOM TOV

On Shabbos, the four species are all muktzah, and should not be touched. On Yom Tov, one may return the hadassim and arovos to whatever was used to store them, but no water should be added.

Please note: **SHUL OFFICE HOURS** are now:

Monday-Thursday 9am - 2pm and Friday 9am - noon.

****Please note:** Any mazal tovs or other messages to be added to the weekly announcements must be received by Thursday at noon.

REMINDER: Halacha (the law) requires that **MEZUZOS** be checked and examined every 3 ½ years or twice in 7 years. Temperature, humidity, as well as age may cause the ink to fade and crack, thereby invalidating the mezuzah. Info: Rabbi Nathan Allweiss, 718-997-8438
