Importance: High

Dear ECC Families,

We hope that you and your family are doing well and staying healthy. We are continuing to evaluate our ability to open the ECC for Summer Camp starting June 1. We want to assure you that we are closely monitoring recent updates regarding CDC Guidelines and Pinellas County Licensing Board regulations. Our Covid-19 Task Force has consulted with medical experts and will meet again next week regarding the unique needs and circumstances of re-opening for summer camp to ensure that when we re-open, our campers, family and staff are as safe as possible. We plan to provide more information by the end of next week, and if we are able to re-open, we will provide details about updated policies and procedures to safeguard our community. We thank you for your continued patience and understanding as we all navigate unprecedented times.

Warmly,
Randi Nash-Ortiz
Early Childhood Center Director
