From The Rabbi's Desk

Rabbi Yisroel Edelman

This week's *Parsha* of *Tzav* continues the theme from last week regarding the *Korbanos* administered by the *Kohanim*. In a meticulous manner the Torah warns against anything not done to perfection lest the *Korban* become disqualified, and the *Kohen* will be held responsible. The Torah warns about any flesh of an offering becoming contaminated “והבשר אשר יגע בכל טמא לא יאכל” The flesh that touches any contaminated thing may not be eaten”. There is an obvious question: Why is it that when a contaminated object encounters a pure object it becomes defiled? Why can't the reverse be true? The Kotzker Rebbe in his inimitable style explained.

When something is impure – it is impure without a doubt, and it has the power to make something else impure. It is unclear, however, whether anything in this impure world can be confirmed to be 100% pure. Casual contact with negativity can be effective and dangerous but for goodness to have a consequence it must be absorbed. May we always surround ourselves with positivity!
