

Temple Israel believes that the safety and security of all congregants and guests are a top priority. In addition to some additional measures we will be implementing, we are hiring deputies from the Leon County Sheriff's Office to provide security during all the High Holy Day Services.

The Board of Trustees would like to remind all congregants and guests that pursuant to Section 790.06(12), Florida Statutes, concealed weapon permit holders are not permitted to carry weapons into Temple Israel because we share our building with the religious school and preschool. We ask that all congregants and guests remain vigilant and aware of their surroundings and if you see or hear anything that causes you concern, please report it to one of the deputies or Board members present.

Please contact a member of the Temple staff should you have any questions or concerns regarding this information.
