

# ***Come On Home***

***Music & Lyrics by Aaron Markovitz, Zipser Foundation Artist in Residence at Temple Israel***

*What has brought me here oh am I  
Nurturing my roots? Or am I planting seeds of growth and change brand new?*

*The circle that reflects eternal  
In this time that we all seek renewal  
Let go of all that's past  
And come on home*

*Come on in we want to wish you well  
At the head of this sweetest brand new year  
Let forgiveness and faith fill the lives of the people we hold so dear  
May you be written in the book of life  
To the past we say goodbye for we have grown  
L'shana Tovah let love and prayer lead you back home*

*Come down to the water let of fill your cup and hold it near  
The joy when we're together you will find it here  
Finding our renewal knowing that we're not alone  
When you look at your reflection I hope you see that you are home*

*Come on in we want to wish you well  
At the head of this sweetest brand new year  
Let forgiveness and faith fill the lives of the people we hold so dear  
May you be written in the book of life  
To the past we say goodbye for we have grown  
L'shana Tovah let love and prayer lead you back home  
L'shana tovah let love and prayer lead you back home*
