

Dear KTT members,

I would like to welcome you and your children to Shabbos youth groups! My name is Aviva Baumser and I, along with my team, will IY"H be running groups at KTT each Shabbos morning. My husband, Shmuel and I have been members of the Kew Gardens Hills community for over 10 years. We have two children: Tamar (8) and Yitzi (5). For the past 10 years, I have been a lead teacher at Judi's Nursery.

To ensure the safety and happiness of your children each week, there are a few items and policies I want to note prior to our first Shabbos:

1. Shabbos groups start each week at 9am and end at the conclusion of the morning davening.
2. Groups are for children ages 3-10. They will be split up based on age in three classrooms. We will be strict on ages to make it easier on the group leaders.
3. A parent must bring their child(ren) into groups to ensure they are properly cared for. A parent must remain in the Shul building for the duration of groups. There is no drop off.
4. At the conclusion of davening, a parent must come pick up their child from the designated groups room. For safety reasons, children will not be able to leave groups without adult supervision.
5. Children will not be allowed to leave groups and reenter freely. Additionally, children will not be allowed to play outside in the yard unless they are with a group leader supervising.
6. Remember, cold and flu season is here. Any child who is not feeling well may not attend groups for that Shabbos.

In connection with the beginning of groups, we are updating our records with children's information. Please fill out the form below:

<https://forms.gle/VFk1Z81D7w8cMr3i6>

Also, we have a KTT Groups WhatsApp chat which will include updates and reminder. Click on the link to join: <https://chat.whatsapp.com/BAujqQ1c69pEoUczpF6WTU>

I am looking forward to getting to know both you and your precious children, and looking forward to a wonderful, educational, and fun-filled Shul experience!

Fondly,  
Aviva Baumser
