RABBI'S MESSAGE

True Colors

As the autumn season is in full force it is impossible not to be impressed by the magnificent display of color evident in the changing foliage around us.

Have you ever wondered about the irony in the fact that this beautiful bouquet of color first appears prior to the leaves imminent departure?

It has been observed that the true color is always there, it is the presence of chlorophyll engaged in the process of photosynthesis that obscures the inherent color from being seen. As the process ceases and the presence of chlorophyll is reduced, the leaf's true color becomes evident.

There is an important message in this fascinating aspect of השם's creation.

In the course of our personal growth and the many efforts we exert to achieve our potential, we often are unable to observe and appreciate our "true colors". It is imperative to sometimes take a step back to appreciate what we truly are. Although the observation is short lived for the process of growth must always continue, we must be מחזק ourselves, our families and friends, on how truly wonderful and beautiful we are. We should never take it for granted.

This week we commemorated the memory of רחל אמנו who's זכויות carry us through and out of the bitter גלות. Yet the וזהר and מדרש intimate that it was because she had assumed and taken for granted her eventual role as יעקב אבינו's wife that she had to wait for that זכות and would not be buried next to him.

May we be inspired by appreciating our accomplishments and the roles we play in the building of ישראל. May that awareness prod us to renewed energy and חיוק in reaching our goals.

באהבה,
צבי טייכמן
