

Temple Beth Tikvah

Coloring Jewish Life in North Orange County

Dear Friend:

Do you think about Temple Beth Tikvah often? I know, I do. Every day. I think of the temple frequently because of my wish and prayer that TBT will continue to be a vibrant communal home for all of us.

What can bring that prayer to be a constant and firm reality is our ongoing commitment to be dreamers, funders and partners of this communal home.

Our ongoing support and contributions are what allows us to call this space "Kehilah - Kdosha" a sacred community. We are a vessel for friendship, for study, for spirituality, for life...

Torah teaches us two important principles about the building of sacred spaces:

- 1- Everybody needs to make a contribution.
- 2- Everybody needs to aspire to contribute the best they can.

During this time of the year we build our financial strength for the year to come. By sending in your pledge, soon, you will allow us to plan in advance and make sure that TBT remains viable and strong for all of us.

If you haven't become a sustaining supporter yet, we encourage you to do so now. You will really make a difference. If you are already a sustaining supporter or above this level, you know that your gifts have allowed us to attain higher aspirations in community engagement, education and many other areas.

If your finances will not allow for the level of a sustaining supporter, please pledge the best that you can now and increase your contribution later in the year or whenever you have the ability. Your contribution counts.

Building community isn't an event but an ongoing process. Let's keep building together.

Thank you in advance for your generous commitment.

Sincerely,
Ronnie Sue Henderson
President
