IPM statement

It is the goal of Shalom School to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to focus on long-term pest prevention and rid the school of ongoing pest problems.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name	Role in IPM program
George Souza	Facilities Coordinator
Mike Gagnon	Maintenance
CWBM – City Wide Building Maintenance	Janitorial Staff

Pest management contracting

- ✓ Pest management services are contracted to a licensed pest control business.
Pest Control Business name: Official Pest Prevention – Elk Grove, Ca.
- ✓ Prior to entering into a contract, the child care center has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: George Souza

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by staff members and results are communicated to the Facilities Coordinator.

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include: Weekly visual inspection by our maintenance staff.

Pests and non-chemical management practices

This school has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Ants	X					X		
Roaches					X	X		
Mice				X				
Skunks				X				

Chemical pest management practices

If non-chemical methods are ineffective, the school will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by staff or licensed pest control businesses.):

Name of Pesticide (Common Name)	Active Ingredient(s)
Orange Guard Inc.	d-Limonene
Monterey Ant Control	Iron phosphate, spinosad
Roundup Weed Killer	Glyphosate, isopropylamine salt

Healthy Schools Act

- ✓ This school complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 – 17613, 48980.3; Food & Agricultural Code Sections 13180 – 13188)

Training

Every year child care center employees who make pesticide applications receive the following training prior to pesticide use:

- ✓ School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

- ✓ Reports of all pesticides applied by center staff during the calendar year, except pesticides exempt from HAS recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This child care center has made this IPM plan publicly available by the following methods (check at least one):

- ✓ This IPM plan can be found online at the following web address: www.shalomschool.org

Review

This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: December 2021

I acknowledge that I have reviewed this child care center's IPM Plan and it is true and correct.
