AIPAC ISRAEL UPDATE May 4, 2018**Netanyahu Says He Has Proof of Secret Iranian Nuclear Program**

Prime Minister Benjamin Netanyahu says Israel has evidence Iranian officials were "brazenly lying" when they said Iran wasn't pursuing nuclear weapons and that the Islamic republic is keeping an "atomic archive" at a secret compound, **CNN** reported. "Tonight, I'm here to tell you one thing: Iran lied -- big time," Netanyahu said late Monday during an address from the Israel Ministry of Defense in Tel Aviv. Calling it one of the greatest achievements in the history of Israeli intelligence, Netanyahu displayed what he said were files that demonstrate Iran planned to continue pursuing a nuclear weapons program despite the 2015 deal it brokered with the international community. Speaking in English, Netanyahu accused Iran of ramping up efforts to obscure the files in 2015 and moving them to a secret location in Tehran last year. The files were kept in massive vaults inside an "innocent-looking compound" in Shorabad District, the Prime Minister said. The 100,000 files contain, among other things, blueprints, charts, photos, videos and presentations dealing with nuclear weaponry, he said. "Iran planned at the highest level to continue work related to nuclear weapons under different guises and using the same personnel," he said.

Profile:CBH -Louis Raymon

Life began in New Brunswick, NJ for Louis Raymon. 10 +1/2 years later he was in the first graduating class of Moriah Academy, later to be renamed the Rabbi Pesach Raymon Yeshiva in Edison. Louis's father (OBM) played a major role in developing the Jewish communities of New Brunswick, Edison and Highland Park. Louis continued his education at Torah Vodaath in Brooklyn for 2 years and then at Brooklyn Talmudic Academy (BTA). His grandmother provided dormitory space. Louis has fond memories of his years at BTA. He enjoyed purchasing knishes from a pushcart and hearing the cheers coming from Ebbets Field when the Brooklyn Dodgers played baseball. Louis was involved with the intra-mural basketball team and the notorious members of the BTA debate team – Jerry Blidstein, Alan Dershowitz and Shlomo Riskin. After graduation Louis pursued his higher education at Yeshiva University and earned his B.A., M.A. and Ph.D in Mathematics. He liked physics and computers but excelled in math. Having earned unsolicited fellowships and assistantships from colleges, helped pay his tuition and living expenses at Y.U. What brought Louis to Philly was an offer from Temple Univ. to be an assistant professor in the Math Department. For many years he chaired the Math Department. Louis was a full professor for 36 years and currently his title is Professor Emeritus. He remained at Temple for 46 years teaching, doing research and in the administrative capacity as an associate dean. In retirement, Louis divides his time between Wynnewood and Jerusalem with his wife Ruth Ann. He stays quite busy by reading, learning, streaming films, occasional exercise, and a few doctor's appointments. Louis finds it much easier to exercise in Israel because he has no car and does a lot of walking. One job that Louis readily admits that he would be dreadful at is sales. Convincing a potential customer to make a purchase is not one of his strong points. He makes a very healthy crustless cheese cake using low fat ingredients, something to keep in mind for Shavuot. He's also known to cook a very tasty cholent. These days Louis is upset with the political scene in Israel and the U.S. He feels the news is slanted. The media is not reliable and honest reporting is no longer a priority. Yom Kippur is his favorite chag because doing tshuva gives him a good feeling. If you ever want to see a twinkle in his eye, just ask Louis about his grandchildren and great grandchildren. Now there are 4 generations of Raymons in Israel in addition to his extended family in the U.S. Louis does not believe in luck but he readily admits that meeting Ruth Ann was the luckiest thing that he has experienced. We wish our jet setting congregant many frequent flier miles between Israel and the U.S.A.
