AIPAC Update September 6, 2019

U.S. Imposes Sanctions on Iran, Hezbollah and Hamas
Over the past week, as part of an overall United States initiative to heighten economic pressure on Iran as the regime works toward a nuclear weapons capability, the U.S. Treasury Department imposed sanctions on individuals and entities supporting Iran, Hezbollah and Hamas. On Aug. 28, the U.S. Department of the Treasury's Office of Foreign Assets Control (OFAC) sanctioned two procurement networks that were providing financial support to Iran's missile proliferation programs. On Tuesday, the State Department imposed sanctions against Iran's space program following a failed attempt to launch a rocket last week, which the U.S. suspects was an effort to advance its ballistic missile program. On Wednesday, OFAC took action against a large shipping network that is directed and financially supports the Islamic Revolutionary Corps (IRGC) Quds Force. The Iranian petroleum shipping network moved hundreds of millions of dollars to the Assad regime and Hezbollah. The Treasury Department has placed sanctions on 26 individuals and "entities" affiliated with the IRGC Quds Force, which the United States said has shipped approximately \$500 million worth of Iranian oil in the last year, as part of a growing effort to push back on Iran's malign actions.
