3RD GRADE - SWEETWATER COMMUNITY GARDEN

The 3rd graders enjoyed their morning at the Sweetwater Organic Community Farm in Tampa. Farmer Cindy gave us a tour of the farm, explaining how the vegetables are grown. She had us sample some of the plants. We visited the chickens (most of whom lay blue eggs) and met Sweetie, a pig who is living out his retirement at the farm. The kids got to pick star fruit to take home. The children also designed insects, rainbows, and butterflies using pieces of tile - the designs were to be added to a large mosaic on the outside wall of the café building.
