PARSHA MATTERS - by Rabbi Sam Taylor

Pharaoh's dreams famously foretell the onset of a seven-year period of success, which would be followed by a seven-year period of scarcity. Pharaoh first saw seven emaciated cows swallowing seven large cows, and then seven lean sheaves of grain swallowing seven large sheaves.

The Torah describes Pharaoh's second vision as featuring seven large sheaves 'sprouting on a single stalk', followed by seven lean sheaves 'growing after them'. Interestedly, whereas the first set of sheaves is said to have sprouted, the seven lean sheaves are described as growing.

Rabbi Shalom Rokeach, the founder of the Belz Chassidic dynasty, explained that the Hebrew word *tzomchot*, growing, used to depict the second set of sheaves connotes a more evident process than the term *olot*, rising, used in reference to the initial set of sheaves. For this reason, he suggests, the Torah speaks of the seven large sheaves' emergence with the term *olot* because the period of surplus set in less conspicuously than the lean years, represented by the lean sheaves. As noted by the Ramban, the surplus was limited to Egypt, whereas the famine that followed struck the entire region. Therefore, Rabbi Rokeach explained, the onset of the famine years was far more widespread and evident than the onset of the surplus years, and so the Torah refers to the seven large sheaves with the term *olot*, which connotes a subtle development, and speaks of the seven lean sheaves with the word *tzomchot*, which suggests a very obvious and widely recognised phenomenon.

Symbolically, this explanation perhaps points to the fact that people often notice misfortune more quickly than they identify good fortune. The lean years of our lives generally catch our attention and trigger anxiety more than the surplus years evoke feelings of joy and gratitude. The subtle distinction between the Torah's depiction of the large sheaves and the lean sheaves perhaps reminds us to feel at least as enthusiastic over our 'large sheaves' as we feel despondent over our 'lean sheaves,' to celebrate our good fortune with at least as much energy and passion, as that with which we bemoan our troubles.
