

ONE- LUV

By Sam Williams May 18, 1999

A formal kind of greeting or salutation.
You'll receive in urban settings, ghettos, or city streets.
While engaging the gangsters, big willies and ballers.
Who society describes to be human beast.

ONE LUV:

Yes, there's still hope beyond coke crack dope
that some people sell to cope.
To revolutionize the essence of the human heart.
We must first untie the hangman's noose from the swinging rope.

ONE LUV:

This is a transparent psychological symbol.
Which open hidden doors beneath floors.
Other times it might pass you by,
like a raging ocean with a silent roar.

ONE LUV:

It's the preamble to all solutions.
That can abolish every level of hate, your constitutional fate.
So if you flow with the wind and never lose your grin.
It might be unlikely to succeed in a life that won't let you win.

One existence, one moment, one more time.
One step, one struggle, one America still undefined.
One light, one darkness, one more reason to fight.
Imagine being at the threshold of life without no rights.

ONE LUV:

For every reason that you fear.
There should be a connection to how you live.
Because the many dark-sides of yourself that you deny.
Has become the imposter that you've nurtured to live.

ONE LUV:

Let's bring greatness through the pearly gates of hope.
Let's build bridges for a lifetime with a broader scope.
Let's fulfill the prophecy of **we shall over come**.....
By leaving legacies that America can be one.
