BASA

THE BARNERT AERONAUTICS AND SPACE ADMINISTRATION

A Subsidiary of the Barnert Temple Men's Club

Rocketry Program

Building model rockets is a timeless activity — enjoyable and educational — for children and adults. Plus, no screens! Barnert Temple's Men's Club is excited to offer this fun and interactive opportunity for parents and children. Come and have a great time, building and launching model rockets.

We will build our rockets in session 1 and launch them at Session 2. All children must be accompanied by an adult.

Registration closes after April 1 so we have time to order and receive the rockets.

**Session 1
Sunday, April 14
12:30 pm**

**Session 2
Sunday, May 19
11 am**

**Pizza served at
build session**

**\$20 per child,
advance
registration
Required by
April 1**

**Questions to
barnetrocketry
@gmail.com**

Drop off payments along with child's name, adult's name/cell number/e-mail in the Men's Club cubby in the Temple Copier Room.

Additional Information and the small print

Session 1: Rocket Building Sunday April 14 at 12:30 pm

- Many children 12 and above will be able to follow the instructions with little help
- Assume younger children will need an active adult partner
- The session should last between 60 and 90 minutes
- We will supply all the needed materials
- We will have pizza and beverages-please let us know of any special dietary needs/allergies
- You will take the rocket home at the end of the session so the children can personalize them. Either spray paint or markers are the suggested methods. Please store them in a safe place as the rockets are fragile and we don't want to tell a child their rocket is not space worthy because of a crumpled cardboard body tube or missing fin.
- **All children must be accompanied by an adult. If you have multiple young children think about bringing another adult. No minimum age.**

Session 2: Rocket Launch Sunday May 19 at 11 am

- We will launch in the rear parking lot
- High winds or precipitation can cause postponement
- We will be following NAR (National Assoc. of Rocketry) rules to ensure a fun & safe time for all. (<https://www.nar.org/safety-information/model-rocket-safety-code/>)
- It is up to parents to make sure your children follow our safety rules.
- We might lose some rockets in the trees. Reasonable attempts will be made to retrieve them.
- The launch should take about 60 minutes depending on number of rockets and weather conditions.

Registration Form

Childs name _____

Age _____

Adult's name _____

Cell phone number _____

E-mail address _____
