Nut Sensitive Policy

The Temple Beth Sholom Education Department is built on the foundation that every child grows and thrives in an atmosphere that is safe and nurturing. Each year we have a number of children with peanut/tree nut allergies. To help ensure the health and safety of all of our students, Temple Beth Sholom schools will all provide a peanut/tree nut-sensitive environment.

Peanuts, peanut products, or products containing traces of peanuts or tree nuts may not be brought into the school wing of TBS. For some children with a nut allergy, even the smell of peanuts can cause life-threatening symptoms. Foods that are brought to TBS for group consumption must be certified Kosher, in their original packaging and not contain nuts. **For the safety of all of our students, please contact the Education Center Office before you bring in any food for group distribution.** Thank you for your help as we work to ensure the health and safety of all the members of our community!

For families that have a child with a nut or other food allergy:

We will work with you to provide a safe learning environment for your child(ren)! Please make sure we have all of your child(ren)'s allergy information on file. If you have questions or concerns about your child's allergy, please contact the Education Department Office.

Our general procedures for food distribution are:

Before any food is given out in our school we contact our families (either by email or phone call). When food is given out, we save all food labels. If there is ever a question or concern about a child being given a food, we error on the side of caution and contact you.
