What is AAATA/TheRide?

Public Transportation!
Ride Tip!

Single-digit routes (3, 4, 5, & 6):
- Go between Ypsilanti and Blake Transit Centers
- Some of our busiest routes

20s & 30s routes:
- Ann Arbor local routes

40s routes:
- Ypsilanti local routes

60s routes:
- Connector routes that do not go to either Transit Center
What Else is AAATA?

*D2A2 is a service of RTA in partnership with TheRide*
Why Should You Ride?
Many reasons!
Transportation and Climate

• Transportation has been the largest source of carbon dioxide (CO₂ – the most common greenhouse gas) in the U.S. since 2017.
Transportation and Climate

- Transportation has been the largest source of carbon dioxide (CO₂ – the most common greenhouse gas) in the U.S. since 2017

Within transportation, personal vehicles account for about 60% of CO₂ emissions.

No matter how a vehicle is powered, we achieve the greatest energy efficiency when we travel together.
My Experience

Let’s Ride Through It
What’s Next for TheRide?
And, How Can You Help?
TheRide 2045

Plan foundations and off-peak enhancements

- 30-minute minimum frequencies on all daytime routes
- Longer hours of operation
- Overnight on-demand expansion and enhancement
- Express pilot on Washtenaw Avenue
- Planning and design for a new bus garage
- Planning and design for Bus Rapid Transit and transit priority
- Improved accessibility for fixed route with better integration with A-Ride
Zero-Emission Buses

**Learning** about electric and hydrogen powered vehicles from peer transit agencies with similar climate and topography.

**Monitoring** the latest research and technology to improve fuel efficiency on current buses and routes.

**Planning** for a zero-carbon emission future.
How Can You Help?

Ride!
Talk to us.
Talk to your leaders and neighbors.
Listen and learn.
Thank you!
