## Be an Active Ally and look for opportunities to provide support/assistance

- Publicly and vocally welcome Muslims as your neighbors
- Show up with signs of support when you hear of mosque protesters, hate crimes, etc.
- Speak out when you hear someone being harassed/attacked or hateful rhetoric used
- Offer to accompany Muslim women or others who may be afraid right now
- Listen to Muslim youth who may need understanding/counseling on these issues
- Find, publicize and attend interfaith and other educational events – bring friends

## Use the Power of Your Pen and Voice

- Speak publicly and vocally through mainstream media – it's the most effective way to change hearts and minds! **Write an op-ed or letter to the editor** about the lives and contributions of American Muslims you know and the need for us to unite on our shared American values of religious freedom, tolerance and diversity. You can find messaging, data points, and other help here: [cairseattle.org/allies](http://cairseattle.org/allies)
- Use personal conversations, group discussions, blogs, and social media to promote the letters you write to media about American Muslims and to stand against hate, bigotry and discrimination

- Speak about your values as a person of faith and help educate your social network about similarities in our faith traditions and the need to stand together
- Speak out when you hear hateful rhetoric or conspiracy theories being spread about minorities, because hate speech leads to hate crimes
- Stand up for those being physically or verbally attacked or dehumanized in person or on social media – don't leave it to the victims to respond
