Finally, thank you to all the members of our shul for their support and for making our makom Torah into the center of our lives.

Your dedication to Adas Torah is truly a sight to behold. From your in-person attendance at the initial building committee meeting just 5 days after Ava was born, to the weekly Friday morning meetings and Wednesday night conference calls, you have been totally invested in this project for more than 5 years. I am so proud of what you've accomplished with the new building, especially considering that it comes on top of the million other things you do as a mother, daughter, granddaughter, sister, aunt, therapist, case manager and, last but not least, spouse. (Did I leave something out? I can't keep track of all the hats you wear!) Thank you for everything you've done for me, our family, Adas Torah and the entire Jewish community. May Hashem continue to give you the fortitude to multi-task like no one else I know.

It took a large team of dedicated individuals to build this beautiful building. As they, and I, can attest too, it is nothing short of a miracle that we completed this project. So first and foremost I would like to give "Shevach V'Hodaa" (Gratitude and Praise) to Hakadosh Baruch Hu, who, without question, guided this project from start to finish.

I would also like express a tremendous amount of gratitude to the many individuals who put their heart and soul into the building, and who time and time again went above and beyond to complete this building.

I would specifically like to thank Dan Gluck, Carl Reichenbach, Tony Mason, Simon Schreier, and the whole Gluck team! Their tireless dedication to this project, went way above and beyond, and I can safely say that without them this project would still be nothing more than a dream.

I would also like to thank my wife Mira, for standing beside me, and supporting me through this long and difficult project. Without Mira's care, understanding, and love I could never have completed this building. I would also like to thank the rest of my family for both supporting and putting up with me throughout the project.

Lastly, I would like to thank the Rav and Rebbetzin, who created this beautiful Kehilla and welcomed our families with open arms. The building, and the fact that we have already outgrown it, are a testament to their love and dedication.

It is my hope that our "Mikdash Me'at" will continue to be a beacon for Torah and Avodas Hashem and that the building and those who use it should stand as a Kiddush Hashem and Baalei Chesed for years to come.
