

Covid-19 Safe Services Committee Update - August 2021

The Dor Tikvah Safety Committee has been following the rising COVID-19 trends in the local area, and based on guidance from the CDC and our medical advisors, we have agreed to implement the following changes until further notice:

Wearing of face masks for all congregants (both vaccinated and non-vaccinated) will be required while attending services or activities at Dor Tikvah. Exceptions to this policy will include speakers and those leading services that are adequately distanced from others. Also, during our upcoming kiddush event, we strongly urge congregants to keep their masks on when possible.

Thanks, in advance, to each of you for your understanding and willingness to work together as a congregation as we navigate these difficult times. The safety of all congregants is dependent on how each of us acts individually and as an entire congregation. For those that have yet to be vaccinated, please consider doing so, as this is the best protection against COVID-19.
