Blessing for the Vaccine:

Blessed are you, Vaccine,
Holy tool of science, medicine, and health,
Secretly, invisibly transforming pathogen to antigen,
Antigen to immunity.
With each dose, be as anointing oil;
Bless us each with strength and power to fight.
No mere superstition are you, but the work of will,
Curative and creative,
Birthed by knowledge and observation and trial and error,
The culminated work of many minds, many hands, many hearts.
Child of science and magic,
Bless us in turn.
Grant us hardiness, grant us protection,
Grant us the will to persist against imperceptible onslaught.
Do your secret work in our bodies and in our blood,
As you did for our ancestors before us.
With each moment may you grow into your purpose
Of protecting those most susceptible, most vulnerable.
Help us to recognize that you are no malefic potion,
No plot or plan or scheme;
But that you are the embodiment and creation of Love for one another,
That you represent the promise of many hands making light work.
When each of us who can, takes on this tiny risk,
The risk for many more divides, and divides,
Until one day, it's gone.
May the labor of those who created you be not in vain,
May your promise grow to fulfillment,
May each of us persist, resist, grow strong with your help.
May our losses be eased.
May we be inoculated from strife and trouble.
Vaccine, work of many, child of many:
Blessed be you among balms.

May the one who hears prayers and requests, hear my prayer. I am about to be given a vaccine to protect me against the novel Coronavirus which has claimed so many lives this year. I am concerned. I know this vaccine might have side effects, and I pray for the strength and grace to handle any that I experience, and to accept that all medications and vaccines have potential side effects. Give me the wisdom to trust my instincts and my body, that I will know when to be concerned. Help my mind to be calm and to trust in this medication and its healing capabilities.

Divine Healer, I am grateful for those whom you have endowed with the knowledge and ability to create vaccines and medications that can protect us against or slow the progress of devastating diseases. I am grateful for my doctors and practitioners who care for me body and spirit.

May this medication/vaccine bring me healing, and may I be granted peace of mind in the knowledge that I am sheltered beneath the wings of Shekhina.

Baruch ata Ado-nai, rofeh haKol, shomei-ah t'filati.

Rabbi Susan Elkodsi

With gratitude and thanksgiving to the
Healer of repairable hearts and
Restorer of brokenness,
appreciation and thanks
for inspiring the medical teams and scientists,
granting them the wisdom, knowledge, and expertise
to prepare this vaccine for all of us.

May it be Your will that with my vaccination
I will be granted the ability to heal and keep safe humankind
and be granted the privilege to fulfill the mitzvah
of one who saves a life.

Blessed are You, Healer of all who are sick.

A Prayer for Receiving the Covid-19 Vaccine

I have been praying for this day and now it is here!
With great excitement, a touch of trepidation
And with deep gratitude
I give thanks
To all the scientists who toiled day and night
So that I might receive this tiny vaccination
That will protect me and all souls around this world.
With the pandemic still raging
I am blessed to do my part to defeat it.
Let this be the beginning of a new day,
A new time of hope, of joy, of freedom
And most of all, of health.
I thank You, God, for blessing me with life
For sustaining my life
And for enabling me to reach this awe-filled moment.
Amen

Prayer for the Covid-19 Vaccine:

Holy One of Blessing,
I say the shehekyanu prayer
for all the big and little “firsts”
the first day of school
the first meal in a new home
the first time seeing a friend after months have passed
the first night of a holiday
Every “first time” is a time to celebrate
the miracle of life

But as I receive the COVID-19 vaccine,
it feels like the first time I’ve ever said these familiar words A shehekyanu of shehek-
yanus a first that leads to other firsts
the first warm hug from a good friend
the first coffee shop conversation
the first in-person prayer service
the first standing ovation
after the first live performance
the first time my hands
touch the hands of another

I receive this first, this vaccine, in memory
of those who died from this disease,
the ones who no longer have firsts to celebrate
and in honor of those who worked while I quarantined
essential workers, medical professionals,
those who risked their lives
to protect mine.

With gratitude to them, and to You,
for my survival in this time of death,
I promise to protect others,
and to bless the miracle
of every breath.

God, please help me remember
to never take another first for granted.

*Blessed are You, Source of Life, Breath of the Universe,
who has kept us alive, sustained us,
and brought us to this season.*

We thank you, our God,
and God of our ancestors,
God of all flesh,
the Creator of cures,
that You have endowed humankind with knowledge
and imbued humanity with the understanding
to find and to invent an inoculation to this pandemic.

May it be Your will that this vaccine will prevent
the spread of the pandemic and
save the lives of millions throughout the world.

that this endeavor be for healing and
may You grant healing to me,
to my loved ones,
to my nation,
and to all who are in need.

Fill me with a sense of gratitude for
all who create, distribute, and deliver this vaccine,
and for all those who work for the health of individuals and our communities.
Empower me to care in good health ever more deeply for others.
Blessed are You, Holy One, Healer of all flesh,
sustaining our bodies in wondrous ways.

A Reflection for Receiving the Coronavirus Vaccine:

As we move from darkness to light

May we take this vaccine as a sign of what is to come

A world reopened and renewed

Embracing family and friends

Gathering together in joy

May we also be mindful of what has been

The lives lost

The sorrow felt

And may the past and present intertwine

Giving us hope for the future.
