Infection Control Precautions

At all times, notwithstanding the current concerns, the practice of proper hygiene precautions and infection control measures should be a constant priority.

All community members are encouraged to be especially vigilant to implement the following common-sense protocols.

- Wash your hands often with soap (using liquid soap on Shabbos) and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing.
- Cover your cough or sneeze, preferably with a tissue that is immediately disposed of or, minimally, into your sleeve.
- Avoid touching your eyes, nose and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Keep a bottle of sanitizer available at each of your home's entrances and in your car for use when you can't immediately wash your hands. Use of sanitizers is permitted on Shabbos.
- Stay home if you are not feeling well.
- Call your doctor if you experience the following symptoms: fever, cough and/or shortness of breath.
