PARSHA OUTLINE BY CANTOR VOGEL

1. While Moshe is on Mt. Sinai God tells him about the Mishkan-Tabernacle that will be built.
2. All of the nation will be called on to contribute to the building campaign, fifteen types of materials will be needed including: gold, silver, copper, fabrics, spices and animal skins, and precious stones.
3. Detailed plans for the pre-fabricated and portable Mishkan-Tabernacle, and its furnishings: the Holy Ark, table for the show bread, Menorah, the fabrics and skins for the roof, the wooden boards for the walls, the Parochet that covered the Ark, the copper altar for sacrifices, and the fabric that formed the walls of the courtyard.

Haftarah Note

Today's Haftarah tells of the building of the Temple by King Shlomo from plans drawn up by his father King David.. Solomon spared no expense in using the finest materials and fabrics in his building. Upon the conclusion of the building Solomon is told by God that the building beautiful as it may be is not the key, but the observance of the Torah and its commandments ultimately make the Temple the earthly seat of God.

AIPAC Israel Update

U.S. to Purchase Israel's Iron Dome Missile Defense, Citing 'Immediate Need'

The U.S. military said Wednesday it plans to buy a limited number of Iron Dome missile defense systems from Israel to fill a short-term need for interim indirect fire protection capability, Haaretz reported. "The Iron Dome will be assessed and experimented as a system that is currently available to protect deployed U.S. military service members against a wide variety of indirect fire threats and aerial threats," the U.S. army said in a statement. According to a statement from Israel's Defense Ministry, the American military told Israel it had decided to purchase the systems "for immediate needs of the U.S. army." Prime Minister Benjamin Netanyahu, who also serves as defense minister, called this a "great achievement for Israel" and "further proof of our solid bond with the U.S., as well of Israel's rising status in the world." "Israel has an Iron Dome and an iron fist. Our systems can face any threat," Netanyahu added. The purchase will be made as part of an agreement between Israel's Defense Ministry and the U.S. Department of Defense. Iron Dome's Israeli manufacturer, state-owned Rafael Advanced Defense Systems Ltd., confirmed the deal without providing further details.
