

Early Childhood Center

Welcome to Our TBJ Kindergarten

“Most of what I really need to know about how to live, what to do, and how to be, I learned in kindergarten. Wisdom did not lie at the top of the graduate school mountain, but there in the kindergarten classroom.”

~ Robert Fulghum

Our full day Kindergarten’s outstanding curriculum provides a multi-sensory approach to learning in a warm and challenging educational environment. Children who turn five by October 1st enjoy our unmatched child/educator ratio which allows for a differentiated and dynamic approach, promoting growth and development across all domains. Our goal of identifying individual learning styles allows our staff to use a combination of approaches to create a firm foundation in literacy and math and to support growth for each child.

Our talented staff are committed to providing children with learning opportunities that focus on the development of social/emotional skills, small and large motor skills and cognitive development to include: Science/Technology/Engineering/Math (STEM), Literacy, Social Studies, Foreign Language, Music Appreciation and Instrument Exploration, Art History, and much more.

In Kindergarten, our thematic approach allows for intentional teaching opportunities both in and out of our school environment. Children enjoy a number of valuable out of school learning experiences at various locations in our community.

With an emphasis on instilling strong Jewish values, our children enjoy inter-generational programming, Tikkun Olam (repairing the world) experiences and an exploration into Jewish holidays and Shabbat.

Our TBJ Kindergarten students graduate from our ECC with a tremendous sense of self, independence, a strong educational foundation, self-regulation skills, and, most importantly, a love of learning.

For information about our exceptional Kindergarten program, please contact Andrea Welt at 973- 379-3177 X 6678 or awelt@tbj.org.
