

KMS High Holidays Operations Appeal 5782/2021

With KMS programming gradually returning to pre-COVID levels, more and more people are returning to our building. During the past year we have discovered the power of virtual accessibility of our classes and programming. Virtual classes have enabled more people to participate in Torah learning and shul activities by attending programs virtually or by listening to previously recorded shiurim. To enhance the experience for both remote and in-person participants we want our rooms to support video-shiurim and multimedia presentations, and to be more sustainable. This year's General Operations appeal will go directly toward supporting IT investments in equipment such as Owls, projectors, large screens, and audio systems to make our building more remote-accessible. Please help support this year's IT operations appeal to bring us together through the power of Torah in HD, and enhance the audiovisual experience of in-person events.

100% of the funds will be used for technology upgrades to KMS, so please give generously!

*Please click [here](#) to submit your pledge.
The Operations budget for 2022 is based in large part on this appeal.
Thank you for your support!*
