Israel Appeal 5779/2018

Through our learning, programs, and dollars, the KMS community has expressed its unwavering love of Israel from day one. When Israel has faced crises, we have as a community stepped up. Today, Israel faces a crisis no less serious than those on its borders: the fragmentation of Israeli society. Among the many communities that struggle to overcome these societal divisions is the Ethiopian community. Those of us with olim in our family know too well the challenges of aliya - how much more challenging to have moved from such a different socio-economic and cultural Diaspora! The good news is that the Ethiopian National Project is doing incredible work in this area. Their SPACE program takes children in the Ethiopian community's most troubled areas and puts them through a program that graduates students at a higher level than the Israeli average. The Government of Israel, recognizing this excellence, has tasked the ENP with tripling their programs - but that will not happen without our help. Please consider making a meaningful gift to help these Israelis overcome their circumstances and make our Homeland the place it deserves to be. Click [here](#) to learn more about this worthy organization.

Yoni Heilman
