Darchei Noam Beit Midrash Now Features New Digital Judaica Library

We are excited to announce a new upgrade to the shul's Beit Midrash. Expanding the Beit Midrash's content library, we'll be installing a couple of tablets and a computer in the Beit Midrash loaded up with programs such as Bar Ilan digital library, a full subscription to Aleph Beta with source materials, the Artscroll Shas app and more, giving people access to great Torah digital content they may not have available at home.

To increase our capabilities to incorporate digital Torah content into shiurim, we are also installing a TV to cast digital source sheets and broadcast shiurim over the internet.

Yeyasher Kochachem: We wish to thank the Bender family for donating the digital Beit Midrash in memory of Josh Bender whose Yahrzeit is this Shabbat.

Important Security Announcements

- The safety and security of everyone in our shul building is of paramount concern and therefore starting this week, **the entry doors will remain locked during davening throughout Shabbat.** If you don't know the door code, please ask one of the shul officers or gabaiim. The code is also posted by the lock, using Hebrew letters.
- Please note that door viewers ("peepholes") have been installed on all entry doors so if you hear someone knocking, **please check who is there before opening the door.** If the person doesn't appear to belong, alert one of the shul officers and leave the door locked.
- In addition, for security and privacy reasons, window shades have been installed throughout the building and **we ask for everyone's cooperation in not raising the shades at any time.** Thank you.
