RABBI'S MESSAGE

1- Every male is obligated to eat in the Sukkah on the first night of Sukkot.

2- A Sukkah must have a minimum of 2-1/2 walls with a minimum area of 60 cm by 60 cm.

3- The walls can be made of anything that will be able to withstand normal conditions for 7 days.

4- The Schach (the stuff we put on the roof) must be made from something that grows from the ground. The Rabbis have also instituted that it must be something that doesn't have a bad smell.

5- The Schach must also be loose fitting and not made into any permanent structure made for regular use e.g. a beam of wood.

6- The Schach must be directly under the sky with nothing overhanging the Schach. This is especially relevant for people living in condos or apartments. Balconies directly underneath another balcony are not a valid place for a Sukkah. In this instance you should either make one on ground level or come and eat in the Shul Sukkah.

7- THE MOST IMPORTANT ASPECT OF THE SUKKAH IS THAT THERE MUST BE MORE SHADE THAN SUNLIGHT.

Therefore, one should ensure there is enough Schach to shade the Sukkah. If there is more sunlight than shade, then one must not eat in the Sukkah until this has been rectified.

8- However, one must ensure the Schach is not thick enough to prevent heavy rain coming through otherwise it will be classed as a permanent roof and is invalid.

9- All bread, cakes and biscuits should be eaten in the Sukkah and the Blessing 'Leyshev Ba-Sukkah' should be made. If it is raining, one is excused from sitting in the Sukkah.

10- If it is raining when one starts his meal, he may finish in the house even if the sun comes out.

11- On the first 2 nights of Sukkot one needs to wait till it stops raining as it is a Mitzvah to eat in the Sukkah. If after a few hours it is still raining, one should make Kiddush and eat a Kazayit (size of an olive) of bread in the Sukkah without a Brachah of Leyshev and finish off in the house. If it stops raining before one falls asleep, then one should go back in and eat a Kazayit again with the Brachah.

Lulav and Etrog

12- A lulav set should be bought from a competent source to ensure that it is Kosher. Then all one needs to do is ensure the Haddasim and Aravot (myrtles and willows) remain fresh and lifelike. It is not uncommon for the Willows to need replacing.

13- On the first 2 days of Sukkot the Lulav and Etrog must belong to you for the fulfillment of the Mitzvah. If you are a member of the Shul, it is better to use the Lulav that the Shul purchases on behalf of all its members which you have a part ownership of, than borrow from a friend.

14- If you are not a member of the Shul you must ask someone to GIVE you theirs as a present so that you may fulfill the Mitzvah. You must return the ownership of the Lulav and Etrog back to the original owner after use.

15- Once you have lifted the Lulav and Etrog in the air you have fulfilled the Mitzvah.

Therefore, in order to recite a blessing prior to fulfilling the Mitzvah, the Etrog must be picked up with the 'pitom' (small protruding thing at the top) upside down i.e the stalk bit should be facing up right. It should be held like this for the duration of the Brachah and then revert it to the right way up.

16- The Rabbis instituted a Mitzvah to waive the Lulav and

Etrog in all the 4 directions of the compass and then up and down.

17- It is customary to do so 8 times during Hallel at the places printed in the Machzor or Siddur.

18- This should be done regardless of whether one is in Shul or not.

Every member who does not have their own Sukkah is encouraged to use the shul Sukkah at any time for their meals during Sukkot.
