ABOUT WIN BAUM and WEB REALTY COMPANY

WEB Realty Company was founded over 30 years ago by Winthrop E. Baum. Starting as a casual, part-time real estate investor, Mr. Baum focused his interests to create a full-time real estate practice in Fairfield and New Haven counties, developing commercial and residential properties. In the process of developing WEB Realty Company, certain values were established as paramount: Integrity, Service, Commitment, and Value. These aren't mere words – they are meaningful pursuits of a business that encompasses brokerage, development, management, construction and financial aspects of both commercial and residential real estate.
