

## The Buzz Around Town...

"My children have each attended school and camp at Nitzan since they were 18 months old. They are now 3.5 and 4.5 and consider the school a second home. The students - and their parents - are all so nice and caring. It has truly been the most nurturing environment I could have hoped for."

The school itself is perfect for Pre-K. There's an enclosed, gated entrance with an idyllic playground. Inside, each level has its own room separated by a long hallway. There are separate offices, early drop off and special event rooms. Everything is clean and comforting. I love that it's not one room but gets the children used to a school environment.

"Our family really loved Nitzan from the beginning because it felt like such a great continuation of everything we are trying to teach the kids at home - grow into respectful, curious, smart, loving and faithful people. The fact that the school is also smaller is such an advantage when the kids are younger. I am always confident that enough attention is paid to them and the teachers are always so lovely and helpful to the kids but to us parents as well! Love Nitzan!"
