Eliezer: Servant of Abraham by Rabbi Jarrod Grover

If you asked Eliezer, Abraham's servant, what his proudest moment in life was, he probably would have told you about how he went to find a wife for Isaac. However, throughout the entire episode, Eliezer's name is not mentioned once; he is referred to as 'the servant' (and occasionally 'the man'). Why is his name omitted from the greatest achievement of his life?

In the Jewish tradition, the word servant (eved) is not insulting. Moses, the greatest of men, was called "eved Hashem", the servant of God. It is a similarly great accolade to be called the servant of a great man, like Abraham. A servant is someone who is willing to

blend into their master's wishes as opposed to having their own agenda. Eliezer's greatness lies in the fact that he was a true servant of his master – he believed in Abraham's philosophy and taught others too.

Eliezer's loyalty was tested specifically on this mission to find a wife for Isaac. With his master at home, Eliezer could have used the journey to do things other than what he was sent for. Nonetheless, throughout, Eliezer remains Abraham's servant – staying loyal to his master and to the task at hand.
