

To make these yummy fluffy eggs all you need to do is break one or two or however many eggs you want into a bowl, add a little chunk of butter and about a tablespoon or as much as you want of grated mozzarella cheese. Put it in the microwave for 45 seconds after you mix it up a lot. Then take it out, mix it up like crazy, and put it back in for another 45 seconds and that's it! If you eat it out of the bowl, you don't even have anything to wash —certainly not a pan!
