JEWISH GENEALOGICAL SOCIETY OF MONTREAL

in association with the

JEWISH PUBLIC LIBRARY

is pleased to announce as our guest speaker:

Nolan Altman

JewishGen Online Worldwide Burial Registry (JOWBR) and the Importance of Jewish Burial Records.

Jewish headstone inscriptions and burial records can provide crucial information to genealogists. Hebrew name inscriptions, based on patronymics, can link together two generations of Hebrew names unlike any other source document. This can be especially helpful when trying to link first generation American ancestors to their European families.

Nolan Altman will explain the importance of Jewish cemetery records. Through photographic examples and case studies, you will see what information and symbols are found on stones and how the information can help to create your family tree.

The meeting will be held on
