HOLOCAUST MEMORIAL BOARD

A Holocaust Memorial Board is currently being created for our Lower Level Chapel.

Some memorial plaques are already in place, and we have commissioned an artist to design an appropriate stained glass feature for the installation. If you would like to dedicate a plaque for either survivors or for victims of the Shoah, please let us know. A very limited number of “sponsorship plaques” are also available. If you have questions, or would like to be involved in any way, please contact Reverend Amiel Bender at amiel@tbdj.org.

Thank You

תודה רבה

Thank you to Judy & Gary Pekofsky for sponsoring today's Main Kiddush in honour of their first grandson Eitan becoming a Bar Mitzvah. The Kiddush takes place in the tent in the parking lot.

Congregation TBDJ extends a warm welcome to our special High Holy Day Musical Guests - Yeshiva University's "Y-Studs"!!!

The Y-Studs were established in 2010 and quickly emerged onto the A Cappella scene. With their powerful soloists and diverse song choices, the Y-Studs released their first album, “Take Me Home” in 2012. The compilation received critical acclaim, and even featured two songs that were selected to the BOJAC (Best of Jewish A Cappella) CD “Ahavat Yisrael,” - better known as “Baneshama.” The “Y-Studs” are currently led by Musical Director Nathaniel Ribner and President Jason Katz, and are now gaining international recognition in a new era they call the “Days of New.”

DO YOU WANT TO SAVE A LIFE?

HERE IS YOUR OPPORTUNITY!

The Ultimate Chesed

My name is Allan Roness. My doctors have informed me that my kidneys are failing and will become non-functioning within the next few months. Today, there is no cure for kidney disease. However, a kidney transplant would not only save my life, but allow me to enjoy extended qualitative years. Although we are blessed with two kidneys, man requires only one. In a spiritual sense, when we wonder why man was given two kidneys, it may be that Hashem, in His infinite wisdom, has enabled man to donate one to a person in need. You may be that person, or know a potential donor.

"When you save one life, it is as if you have saved the entire world"
Talmud, Sanhedrin 37a

Facts You Should Know

- In the U.S. there are more than 90,000 people waiting for kidney transplantation.
- Each year, 35,000 people are added to the waiting list.
- The average wait time for a transplant is between 3 to 4 years.
- Approximately 6,000 kidney living donor transplants are performed annually in the U.S.
- Each year, 4000 people die waiting for a kidney.
- In my home state of Florida 1,000 people are on the waiting list for a kidney transplant at the Miami

Transplant Institute - a transplantation center with an unrivaled success rate.

- The kidney donor procedure is minimally invasive, with a 1-2 day hospital stay.
- Kidney donors find the experience extremely rewarding and resume their regular activities very quickly and in excellent health.

Living Donation

In my case, I cannot wait 3 to 4 years for a kidney to become available. If I can obtain a living donor, the wait time will be eliminated and my life can be saved.

Who Can Be a Living Donor?

A living donor can be anyone between the ages of 18 and 65. The person must be in good physical and mental health. Donors with blood type O are the best candidates to be a match for me but other blood type individuals can participate in a donor exchange program as well, increasing the chances of the recipient to obtain a kidney. Potential donors will be tested to see if they are a compatible match. All details for the donor will be provided on request.

Anyone who is interested in being a donor or who knows of someone who could be a possible donor candidate should contact Allan Roness in Miami at 1-786-453-2191.
