At the end of the Chofetz Chaim's life, a great machlokes (quarrel) broke out in the Yeshiva in Radin. One day, the Chofetz Chaim entered the Beis Midrash of his Yeshiva, his body trembling and his face red with anger! He walked up to the podium and said the following: "This Yeshiva was founded and predicated on Shalom, and the machlokes should run from here." Rav Mordechai Zuckerman, who was there at the Shul, said, "Anyone who saw how the Chofetz Chaim spoke so sharply against machlokes could never allow themselves to get involved in a machlokes."

Wishing you a great and inspiring day!
