Taking care of your pledge payment through the sale of appreciated securities.

If you own securities, such as stocks, bonds, or mutual funds, it is often more tax-wise to contribute the actual securities than cash. This is because a gift of appreciated stock generally offers a two-fold tax saving. First, you avoid paying any capital gains tax on the increase in the value of the security.

Second, you receive a charitable contribution deduction for the full fair market value of the security at the time of the gift. Please review these tax benefits with your tax adviser to determine specific benefits to you.
