

## Interim Rules for Services and Events Revised March 2, 2022

In light of the recent updates in protocols for Santa Clara County, we are lifting many of our prior restrictions. As the county is continuing to strongly recommend wearing masks in indoor public settings, we have amended protocols at Temple Emanu-El to the following:

- We require that all people eligible to receive the Covid-19 vaccination will be fully vaccinated (including booster) prior to attending events and services at Temple Emanu-El.
- Pre-registration is required to attend.
- Declaration of full vaccination is required when registering or at the door upon arrival.
- Masks are optional but are strongly recommended for group settings, particularly for those who are immune compromised.
- Food Service Requirements:
  - Hand sanitizer is required before going through food service stations.
  - Food serving utensils must be used.
  - No food consumption within 6 feet of food service stations.
  - Masks required for preparing, plating, or serving food.
- Religious School will continue to require masks indoors for the time being.
- Preschool protocols align with requirements from community care licensing and may differ from above.
