

SENIOR CENTER NEWS

August 2020

Senior Centers are a community gathering place that offers socialization, education, and recreation for the 60+ crowd. This is a place where you can exercise, learn a new language, play games, attend educational presentations, dance, socialize, and more!

Virtual Senior Center Your Center at Home!

Salt Lake County is pleased to announce the development of a Virtual Senior Center!

Aging & Adult Services' new Virtual Senior Center will offer programming that seniors can do from the safety of their own home! These programs will include online, video conference, telephone, or self-guided activities that require neither phone nor computer. A variety of class types will be available ranging from support groups, exercise classes, education, arts & crafts, and even self-guided tours of local areas.

The development is ongoing - we have exercise classes and wellness videos on our YouTube page from the Health Promotion program and are working every day to create new opportunities, including presentations, classes, support groups, and more.

Virtual Senior Centers combat loneliness and isolation among older adults, many of whom are still actively socially distancing and starting to feel the impacts of prolonged isolation.

Connect with Aging & Adult Services' social media pages and check back here for more Virtual Senior Center content and opportunities to connect in the coming months!

Thank you,

Aging & Adult Services' Administration
