- **TICK PREVENTATIVE AND MEDICATION.** The animals on the Reservation have a lot of ticks (ears and bellies full). We have to treat them with a special medication to get the ticks off. Only a vet can order the medication (it's much stronger and more potent than what's available over the counter). Our vet can order at our shelter discount. So, if you collect funds/cash for tick medicine, that would be very helpful too.

For Our Rescue Partners on the Ute and Navajo Reservations (Please help us help them)

- Large bags of dry dog food
- Large bags of dry puppy food
- Wet puppy food
- Igloos and doghouses for shelter from the heat (105 degrees plus right now)
- Mesh covers. They use makeshift shelters, but there is no shade. They use plywood and tarps to provide shade, but those are hot. If we could get mesh covers to them, they breath and allow air to get to the dogs, you can also hose them off and cool the air. Amazon has some.
