As we gather for Sukkot, we feel the distress of "God's handiwork that is drowning in the sea" in North Carolina. In the coming weeks, we will turn our communal attention to the disaster relief there. To get a head start, support NECHAMA: Jewish Response to Disaster, which has established a strong track record of good work: <https://nechama.org>.

**HALACHA HOW TO: LULAV & ETROG**

To assemble the lulav, hadasim and aravot, begin by holding the lulav so that the thick green spine is facing you. The hadasim (of which you have three) go on the right side of the lulav & the aravot (of which you have two) go on the left. The hadasim should extend just a little higher than the aravot & the lulav should extend several inches higher than the hadasim.

The procedure for performing the mitzvot of lulav & etrog is as follows: We take the lulav (with the hadasim & aravot) in our right hand & the etrog – with pitum facing downward – in our left. (If we were to take the etrog right-side-up, we would at that instant be fulfilling the mitzvah before we had a chance to recite the bracha.) Then we recite the bracha "al netilat lulav" & on the first day "shehechianu." After we've recited the brachot we turn the etrog right-side-up & wave the entire package in front of us, then to the right, then behind us, then to the left, then upward & finally downward.
