

Tikkun Olam Report September 2018

The committee has worked across all the workgroups on the High Holiday display and the Tashlich Tikkun Olam Fair. Each workgroup/project provided photos and captions for the display, and had representatives at Tashlich. There were a lot of donations for the tzedakah project at Rosh Hashanah Day 1, and we expect a lot more at Yom Kippur. We developed a one-pager with information about the ballot measures Havurah endorsed.

Climate Action Team

HCAAT is hosting a showing of *The Reluctant Radical* in October and is doing a lot of work on the Portland Clean Energy Fund ballot measure.

Sanctuary:

The political action part of the committee is focused on Measure 105.

Tikkun Olam Adelante is gearing up to relaunch some of the projects that took a break over the summer, and continue the others. The new structure of have a TOA Steering Committee seems to be working well. There is concern that we aren't able to recruit enough volunteers from Havurah to staff all the projects. One project needs Spanish speakers, and another needs more tutors. There is a request to Steering to explore the possibility to allow non-members to volunteer.

Refugees

We will be exploring the opportunity to support an apartment move-in after the holidays. A new member has volunteered to be part of the team.

Poverty and Homelessness

Portland Homeless Family Solutions has moved to the Lents campus. We will be shifting our volunteer shifts there as they launch operations in the new location.

MACG

The Core Team met with Ken Lerner to review the action plan for the year.
