

Level per CDC*	Red	Yellow	Green
Vaccination	Eligible attendees are fully vaccinated and boosted as per CDC recommendations		
Masking** indoors	Yes (staff working alone in their office may remove mask)	Recommended (particularly in common areas or <6' from others)	Welcomed
Permissible activities	~Avoid indoor group gatherings unless distancing is carefully maintained ~Shift religious school to online and outdoor activities ~ No more than 25 people in the sanctuary ~100% masking ~Avoid indoor dining ~ Maintain a safety barrier of 3 rows between bimah and seated congregants	~Resume indoor activities that involve eating/ drinking ~Maintain distancing (alternating rows) ~May remove mask to eat ~May remove mask to speak from bimah or lectern ~Required to mask if leading the service (singing / chanting) unless negative test (rapid test ok) in past 24 hours ~May remove mask to teach ~No more than 250 people (~25%) sanctuary occupancy ~>6' between tables set for eating (e.g. social hall, multi-purpose room) ~ Maintain distancing including a safety barrier of 2 rows between bimah and seated congregants	No limitation

* If county indicators suggest different transmission levels, the higher level is selected.

** Quality, well-fitting N95, KN95, or KF94 strongly preferred; or surgical mask

Effective date for choosing which column is 2-3 weeks ahead of a simcha to allow for event planning.

Exceptions to these guidelines may be reviewed by the Health and Safety Committee and granted on case by case basis by the President.

This table is meant as a guidance document and not an exhaustive list of all mitigations in force. In particular, the religious school has specific guidelines that can be found at <https://www.bethelrichmond.org/faqschool>.
